ABOUT THE CENTER FOR LEGISLATIVE ACCOUNTABILITY

ACUF's Center for Legislative Accountability researches and selects a range of bills to evaluate a member's adherence to conservative principles. We begin by defining conservatism (i.e., the political philosophy that sovereignty resides in the person). Next, we apply our understanding of the proper role of government (i.e., protecting Life, Liberty and Property). Then, we select bills that focus on Ronald Reagan's philosophy of the "three-legged stool": 1) fiscal and economic: taxes, budgets, regulation, spending, healthcare, and property; 2) social and cultural: Second Amendment, religion, life, welfare, and education; and 3) national security: preserving our nation's security by maintaining a strong national defense. The wide range of issues covered are designed to give citizens an accurate assessment of how Members of Congress view the role of government in an individual's life.

METHODOLOGY

The CLA's Ratings of Congress and the States illustrate how elected officials view the role of government in an individual's life. When determining a position on a particular issue, the CLA begins by defining conservatism: the political philosophy that sovereignty resides in the person. Then, we apply the founders' belief that the proper role of government is to protect Life, Liberty and Property.

In order to depict how closely a lawmaker adheres to conservative principles, the CLA selects from the full spectrum of issues relating to the economy, culture, national security and government integrity. Some key areas include taxation, spending, education, labor, licensure, regulation, environment, life, free speech, Second Amendment rights, foreign aid, defense priorities and global organizations, including the United Nations. All congressional and state analyses are conducted after the adjournment of a legislative session to ensure that no issue is neglected.

Each lawmaker is evaluated on a zero to 100 scale, with a score of 100 representing a voting record that is perfectly aligned with conservative principles. Officials who earn a score of 90% or higher are presented with the CLA's highest honor, the Award for Conservative Excellence, while those who earn a score of 80% or higher, but less than 90%, are presented with the Award for Conservative Achievement. Additionally, any lawmaker who earns a score of 10% or lower qualifies for the ACUF's Coalition of the Radical Left.

To determine legislative rankings, the CLA annually evaluates over 105,000 bills that were introduced in Congress and every convening state legislature running from January 1 to December 31. Of those bills, the CLA ultimately selects roughly 2,000 pieces of legislation that best illustrate how elected officials view the role of government in an individual's life. The CLA calculates individual scores for a total of nearly 8,000 federal and state lawmakers based on over 157,000 votes cast on the 2,000 bills selected. The CLA provides a score for each legislative chamber, which is based upon the average scores of all members within that respective chamber. A legislature's overall score is calculated by averaging each state's two legislative chambers together in order to better reflect the differences in political power between the chambers. (The exception being Nebraska, the nation's only unicameral legislature comprising a single legislative chamber, on which the state's overall score is based.)

KANSAS SENATE VOTE DESCRIPTIONS

1. **SB 2 Strengthening Individual Liberties by Authorizing Alcohol Sales and Consumption on the State Fairgrounds and Raising the Allowable ABV Level of Wine to 16%.** ACU supports these measures which expand individual liberties and entrepreneurship and supported this bill. The Senate passed the bill on March 31, 2022 by a vote of 31-6 and the bill was signed into law.
2. **SB 34 Protecting Individual Liberties through a Prohibition on Government Imposed Mask and Vaccination Mandates.** ACU supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good. ACU supports this measure to ensure the legislative branch remains in control of masking and other mandates as opposed to unaccountable bureaucrats and supported this bill. The Senate passed the bill on April 28, 2022 by a vote of 23-17 but the bill was vetoed by the Governor.
3. **SB 58 Strengthening Parental Rights and Transparency in Education by Establishing a "Parents' Bill of Rights".** ACU supports strengthening parental rights and increasing transparency within the education system and supported this bill.
