## LETTER FROM THE CHAIRMAN

The American Conservative Union Foundation's Center for Legislative Accountability is proud to present our *Ratings of New York* for 2021. Like our *Ratings of Congress*, ACU Foundation's *Ratings of the States* are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy (conservatism is the political philosophy that sovereignty resides in the person) and then apply the proper role of government (its essential role is to defend Life, Liberty and Property).

The Left has stormed our nation's corridors of power to take control over the lives of every American. Now, they have set their sights on the states, freedom's last line of defense.

President Lincoln once said, "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." The Left's agenda dismantles the vision of our founders when they pledged their lives, their fortunes, and their sacred honor.

We hope these Ratings will empower each and every American to hold their officials accountable and to rally behind the conservative champions who defend our freedoms in statehouses around the country.

American Conservative Union Foundation

## ABOUT THE CENTER FOR LEGISLATIVE ACCOUNTABILITY

The Center for Legislative Accountability (CLA), an initiative of the American Conservative Union Foundation (ACUF), is the premier organization for holding lawmakers accountable. The CLA produces the longest-running conservative congressional scorecard and our state program is the only one in the nation that scores all 8,000 lawmakers in the 50 states across every policy area. In addition to ACUF's Conservative Political Action Conference (CPAC), the largest gathering of conservatives in the world, the CLA develops conservative policy solutions and educates everyday citizens and activists on the proper role of government. In 1971, ACUF launched its *Ratings of Congress* to provide a comprehensive evaluation of the voting records of every Member of Congress.

The Ratings quickly became considered the "gold standard" and over the following decades have been utilized by activists, voters, academics and elected officials to determine which lawmakers best adhere to conservative principles. In 2011, these Ratings were expanded into state legislatures as part of a five-state pilot program. By 2015, *Ratings of the States* grew to include all 50 states and all 99 legislative chambers.

Today, the CLA annually analyzes over 105,000 pieces of legislation to issue scores for all of America's federal and state lawmakers and presents awards to lawmakers who score 80% or better in recognition of their conservative voting records.

#### **METHODOLOGY**

The CLA's Ratings of Congress and the States illustrate how elected officials view the role of government in an individual's life. When determining a position on a particular issue, the CLA begins by defining conservatism: the political philosophy that sovereignty resides in the person. Then, we apply the founders' belief that the proper role of government is to protect Life, Liberty and Property.

In order to depict how closely a lawmaker adheres to conservative principles, the CLA selects from the full spectrum of issues relating to the economy, culture, national security and government integrity. Some key areas include taxation, spending, education, labor, licensure, regulation, environment, life, free speech, Second Amendment rights, foreign aid, defense priorities and global organizations, including the United Nations. All congressional and state analyses are conducted after the adjournment of a legislative session to ensure that no issue is neglected.

Each lawmaker is evaluated on a zero to 100 scale, with a score of 100 representing a voting record that is perfectly aligned with conservative principles. Officials who earn a score of 90% or higher are presented with the CLA's highest honor, the Award for Conservative Excellence, while those who earn a score of 80% or higher, but less than 90%, are presented with the Award for Conservative Achievement. Additionally, any lawmaker who earns a score of 10% or lower qualifies for the ACUF's Coalition of the Radical Left.

#### **ANNUAL METRICS**

To determine legislative rankings, the CLA annually evaluates over 105,000 bills that were introduced in Congress and every convening state legislature running from January 1 to December 31. Of those bills, the CLA ultimately selects roughly 2,000 pieces of legislation that best illustrate how elected officials view the role of government in an individual's life. The CLA calculates individual scores for a total of nearly 8,000 federal and state lawmakers based on over 157,000 votes cast on the 2,000 bills selected. The CLA provides a score for each legislative chamber, which is based upon the average scores of all members within that respective chamber. A legislature's overall score is calculated by averaging each state's two legislative chambers together in order to better reflect the differences in political power between the chambers. (The exception being Nebraska, the nation's only unicameral legislature comprising a single legislative chamber, on which the state's overall score is based.)

## **NEW YORK SENATE VOTE DESCRIPTIONS**

- 1. SB 14A Infringing Second Amendment Rights and Firearm Customization by Banning So-Called "Ghost Guns." ACU supports the founders' belief in the Second Amendment and opposed this bill. The Senate passed the bill on June 2, 2021 by a vote of 48-15 and the bill was signed into law.
- 2. SB 255B Driving Up Taxpayer-Funded Construction Costs by Expanding Applicability of the "Prevailing Wage" Mandate to Include Supply Delivery and Hauling. ACU has long opposed the Davis-Bacon Act and prevailing wage mandates which unnecessarily drives up the cost of taxpayer-funded projects and opposed this bill. The Senate passed the bill on June 2, 2021 by a vote of 48-15 and the bill was signed into law.
- 3. SB 360 Weakening Election Integrity Through a Constitutional Amendment Implementing a Permanent Vote-by-Mail Scheme. ACU recognizes that election integrity safeguards, such as reserving absentee voting for individuals who would otherwise be incapable of voting, are designed to help ensure that one person cannot cast the ballot of another (or one person on behalf of many others). ACU opposes weakening election integrity by eliminating safeguards that prevent voter fraud, which disenfranchises eligible voters, and opposed this bill. The Senate passed the bill on January 11, 2021 by a vote of 50-13. (The proposed amendment appeared on the November 2021 ballot for voter approval but was defeated.)
- 4. SB 471A Further Infringing Property Rights by Extending the COVID-19 Eviction Moratorium on Commercial Property to May 1, 2021. ACU recognizes that landlords oftentimes have mortgages and other expenses themselves, and firmly opposes the Left's "cancel rent" movement which drives up rental costs for everyone and opposed this bill. The Senate passed the bill on January 19, 2021 by a vote of 46-17 and the bill was signed into law.
- 5. SB 517 Weakening Election Integrity by Establishing Same-Day Voter Registration. ACU recognizes that election integrity safeguards such as requiring advance registration are designed to help ensure that one person cannot cast the ballot of another (or one person on behalf of many others). ACU opposes weakening election integrity by eliminating safeguards that prevent voter fraud, which disenfranchises eligible voters, and opposed this bill. The Senate passed the bill on January 12, 2021 by a vote of 42-20. (The proposed amendment appeared on the November 2021 ballot for voter approval but was defeated.)
- 6. SB 528 Advancing a Radical Leftist Agenda Through an "Environmental Bill of Rights" Constitutional Amendment. ACU opposes attempts by the Left to infringe property rights and foster runaway spending in their quest to advance a politicized environmental agenda and opposed this bill. The Senate passed the bill on January 12, 2021 by a vote of 48-14.
- 7. SB 841A Increasing Oil Distribution Costs Through Overreaching Mandates Concerning the Paint Color of Petroleum Storage Tanks. ACU opposes this government overreach which drives-up business costs and opposed this bill. The Senate passed the bill on June 1, 2021 by a vote of 52-11 and the bill was signed into law.
- 8. SB 979A Imposing New "Cultural Competency Training" Mandates on Real Estate Brokers. ACU opposes making it even more costly and time consuming to obtain a license under the state's draconian real estate licensing regime and opposed this bill. The Senate passed the bill on June 9, 2021 by a vote of 61-2 and the bill was signed into law.
- 9. SB 1383 Raising Housing Construction Costs by Mandating Builders Offer Fire Sprinkler Systems. ACU opposes this government mandate which increases housing design and construction costs and opposed this bill. The Senate passed the bill on May 20, 2021 by a vote of 44-19 and the bill was signed into law.
- 10. SB 1451A Imposing a New Barrier for Hospital Expansion by Mandating Submittal of "Health Equity Impact Assessments." ACU supports the complete elimination of all unnecessary barriers for hospital and healthcare facility expansion such as the state's certificate of need law which restrict competition and drive-up costs and opposed this bill. The Senate passed the bill on May 11, 2021 by a vote of 44-19 and the bill was signed into law.

- 11. SB 1453B Socializing the Costs of Non-Paying Utility Customers Through a Moratorium on Utility Shutoffs. ACU opposes this measure which will ultimately stick utility companies with unpaid bills which will then be passed onto other utility customers through higher rates (cost recovery) and opposed this bill. The Senate passed the bill on March 30, 2021 by a vote of 54-9 and the bill was signed into law.
- 12. SB 1630A Invoking Unnecessary Government Interference in the Private Operations of Food Delivery Platforms and Restaurants. ACU recognizes this measure is largely designed to use government to provide restaurants greater leverage in their negotiations with delivery platforms, as restaurants already have the freedom to refuse to provide their products to a delivery platform. ACU further recognizes that any specific issue, such as use of a restaurant logo by a delivery platform, should be addressed through targeted legislation. ACU opposes invoking government interference in the free marketplace to provide more favorable outcomes to one party over another in their negotiations and opposed this bill. The Senate passed the bill on January 19, 2021 by a vote of 63-0 and the bill was signed into law.
- 13. AB 2111 Establishing a New Government Fund to Promote Leftist Anti-Gun Research.
